

## The Lasso

The lasso lets you select part of your image and cut, copy or paste the selection into any cel. Before you paste it you can move, scale, rotate, squash, stretch and flip it.

- Tap the Lasso icon
- Surround the part of the image you want
- Select Cut or Copy
- Drag within the box to move it
- Drag on the handles to transform it
- Tap on the Stamp icon to place it more than once.
- Tap outside the box to drop it into place
